

Station to test gas emissions from heat engines (cars, mopeds, moto, trucks, campers....)

- Multi-fuel compatibility
- Diesel | Smokemeter
- Petrol | Gas Analyzer
- Diesel-Petrol | Combined

- Gas Analyzer & Smokemeter
- LCD Screen
- Azerty/Qwerty keyboard
- Built-in thermal printer
- Inductive RPM sensor
- Piezo sensor
- Oil temperature probe
- Data security:
 - OTC Lan | GIEG Lan
- Mobile trolley

Made in France

GAS ANALYZER | PETROL ENGINES

- . 4-gas analyzer | CO, CO₂, HC, O₂
- . Comply with OIML R99, 0 Class & ISO 3930 standards
- . Preheating time less than 5mn at 20°C
- . Condensation automatic extraction
- . Automatic auto 0 every 30mn, priority to measurement

Dual mode

- **multiple gas check**
- **technical inspection**

Supply 115-230V 1,5A | 47Hz to 63Hz

SMOKEMETER | DIESEL ENGINES

- . Comply with smoke emission PTI as well as workshops checks
- . Opacity curve display feature
- . Adjustment to 0 and automatic calibration
- . No calibration needed
- . Bluetooth (CAP1221)
- . Minimum dirt
- . Robust and reliable

OPTIONS

- CAP4220 : EOBD interface
- CAP8520 : Bluetooth RPM and oil temperature
- CAP1220 : Bluetooth module
- CAP1320 : IR temperature probe
- 5 Gas Nox optional

VERSIONS

- CAP3201EX-GOL Combined
- CAP3201EX-G Gas analyzer
- CAP3201EX-O Smokemeter

STATUTORY APPLICATIONS

- SR/V/F9-1
- SR/V/F9-2
- SR/V/F9-3
- MID
- NFR 10025

LCD screen

4-wheel basement
(directional and with
brakes)

Thermal
printer

CAP4220
Wireless EOBD scantool

CAP1320
IR distant temperature
probe
