BRAKE TESTER

Dimensions : 232 x 69 x 28 cm
Axle max load : 4 t
Motor power : 4 Kw (ABM germany)
Test speed : 5 km/h
Measurement range : 0-750 daN
Path: 80-220 cm
Aluminium rollers high resistance and adhesion
Wireless Pedometer (bluetooth)

Options : Progressive start & roller stop, coverage patches

SUSPENSIONS

Dimensions : 232 x 43 x 28 cm
Frequency : 0-25Hz
Axle max load : 4 t
Motor power : 3 Kw
Test Method: EUSAMA
Path: 80-220 cm

SIDE SLIP

Dimensions : 45 x 52 x 7 cm
Measurement range : 20/-20m/Km
Axle max load : 4 t

Power supply: 230/400V, 50Hz

OPTIONS

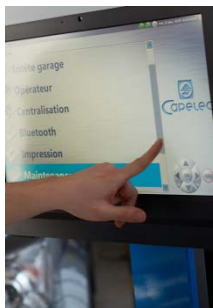

CAP9000-RF | Free rollers
CAP9000TE | Larger path set
CAP9520 | Pedometer
PROxxx | Coverage patches
PRO0317 | Mobile basement
CAP95x0 | Dual decelerometer
PROxxx | Distant Screen
PROxxx | A-B adaptation templates

VERSIONS

CAP9010EX- 20/23 | 20-23" screen, pedometer
CAP9010EX- 20/23 B | 20-23"screen, pedometer, brake stop and progressive start
CAP9010EX- 20/23 BD | 20-23"screen, brake stop and progressive start, dual decelerometer
CAP9020 LV + large vehicles

APPLICATIONS

SR/V/03 D

Touchscreen and S9010 software

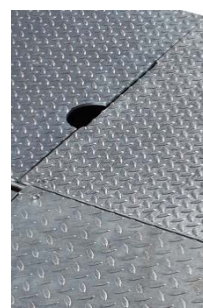

Option : wireless dual decelerometer module

Epoxy rollers in aluminium & galvanised frame

Variants : wheel-stop and progressive start

Option : coverage patches and adaptation templates

Option : CAP9000TE Large path set
